

Brass Mini Ball Valve

Advantages

- The BV Series Mini Ball Valve is to be used in confined and hard to reach applications. The Brass extruded body allows for extended service life and is chrome plated as standard.
- This economical ball valve is available in 1/8", 1/4", 3/8" and 1/2" sizes.

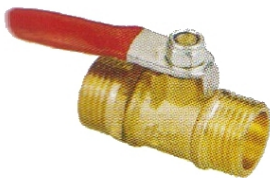

Applications

- The ball valve products line is intended for general purpose use. Please be aware that ball valves are intended for use in the fully open or closed positions.
- For use on water and air service lines on capital equipment and plant design plumbing that require total shut-off capability.

Specification

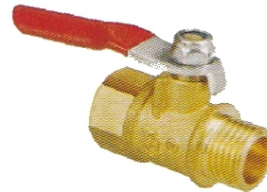

Model	
Temperature	-10~ + 250 C
Pressure	25 bars
Application	Water, Gas
